PREVIEW

CHAMIQDRILL - Expansion of the IFP Line

Highlights

IFP Drilling Heads Are Now Available in the Range of 33.0 to 40.0 mm Diameters in Increments of 0.1 mm.

- The IFP drill heads can be mounted on any CHAM-IQ-DRILL body featuring the appropriate pocket size.
- High wear resistance.
- Stable and predictable wear progression.
- IT10 tolerance can be obtained.
- Produced from IC908 grade – a PVD coated fine submicron grain substrate.
- The drill head is designed with a honed cutting edge.
